Utilizing the XHUMA Platform is a great way for the Board to increase engagement with its members, and to increase interaction amongst members.

- **Opportunities**
  - Great for the Board to share potential career opportunities with members, by posting it on members' newsfeed.
- **Events**
  - This feature allows you to create new events and publish to your member base, upload event flyers for members to access and keep track of RSVPs
- **Groups**
  - XHUMA allows for the creation of groups of members with similar interests. Members can work in teams and collaborate on different projects various tools in the platform.

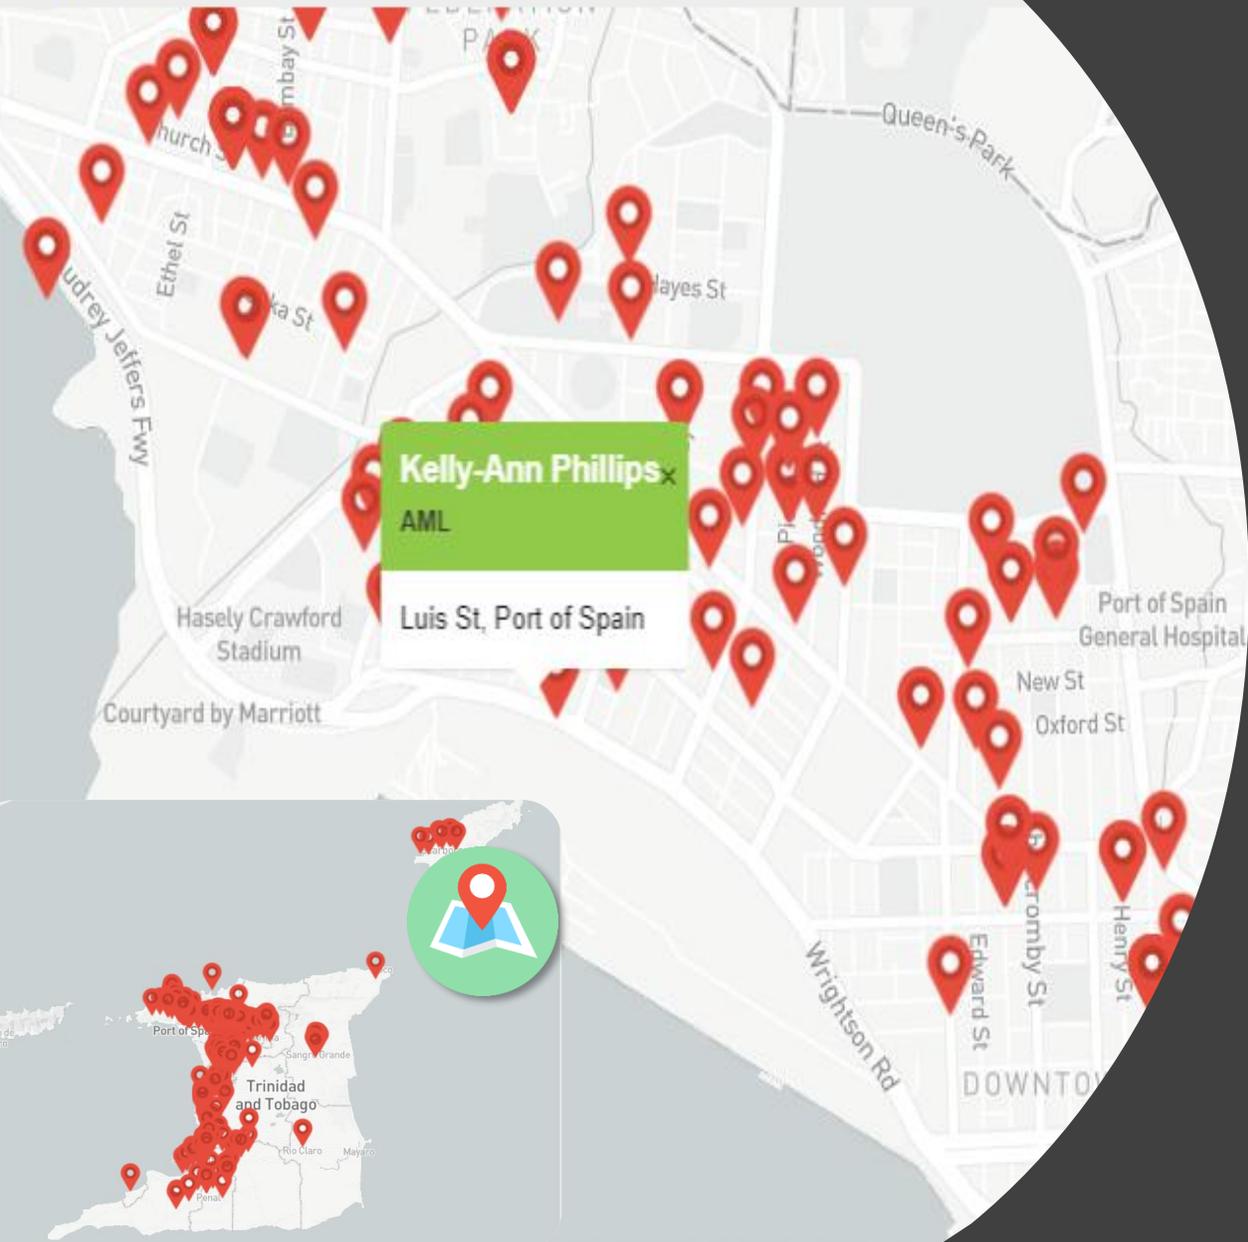

# Tele & Video Conferencing

- With the XHUMA platform you can conduct your business meetings virtually using our teleconferencing and videoconferencing features.
- Conduct Board Meetings or meetings with individual members while sharing and reviewing other content within XHUMA.
- All your video connections are safe and secure and are hosted in our platform, where only members have access.

## Benefits

- Continue operations & meetings without the need for physical meetings. This is particularly relevant as we face COVID-19.
- Improve meeting efficiency as real time data can be shared with everyone on the call.

# Data Analytics

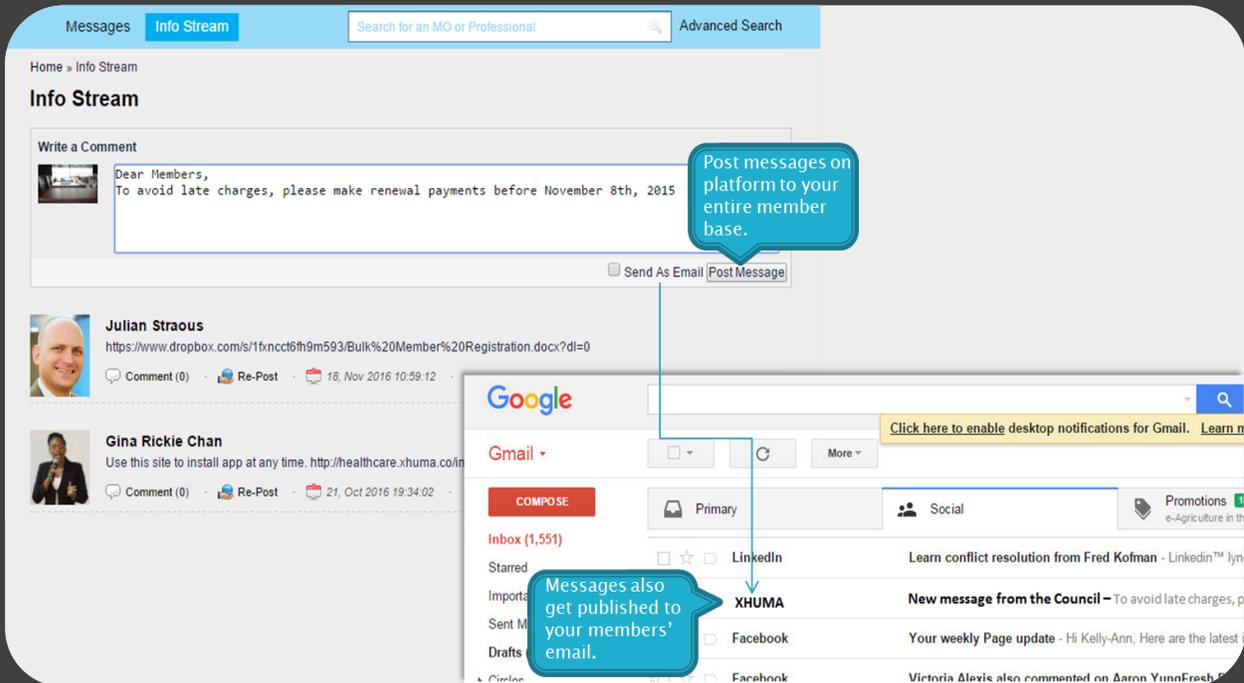

- Location Analytics shows the offices of all the members on a map
- Additional information about each member can be displayed by clicking on their pin.

## Benefits

- Improves manpower planning and easily shows the location of practitioners which helps identify areas of strengths and potential gaps in making healthcare accessible to all.
- Aids other decision making as information can be displayed by other criteria e.g. specialization/ names etc.
- Data can be exported into other formats such as excel or PDF and further analyzed as needed.

# Convenient Member Messaging

- Communicate with your entire membership by posting to XHUMA's Infostream
- Option to send messages to members' email even if they are not logged in to XHUMA
- Other messaging modules include Groups and Direct Messaging

## Benefits

- Improved communication between the board & its members.
- Secure communication within XHUMA network, ensuring communication is shared only with the intended audience.
- Improved networking between members through groups.
